Console output : Load time and resolution

The screenshot shows the Eclipse IDE interface with the console window open. The console displays the output of a Selenium test run. The test is titled "Automation [TestNG] C:\Program Files\Java\jdk8u345-b01\bin\javaw.exe (11-Oct-2022, 9:42:03 am - 9:43:38 am) [pid: 10256]". The output shows that the test detected TestNG version 7.0.0 and failed to load the class "org.slf4j.impl.StaticLoggerBinder". It then defaulted to no-operation (NOP) logger implementation. The test started ChromeDriver 105.0.5195.52 (412c95e518836d8a7d97250d62b29c2ae6a26a85-refs/branch-heads/5195@{#853}) on port 60708. Only local connections are allowed. Please see https://chromedriver.chromium.org/security-considerations for suggestions on keeping ChromeDriver safe. ChromeDriver was started successfully. [1665461535.795][WARNING]: This version of ChromeDriver has not been tested with Chrome version 106.
